

K-LOVE is a translator station that is very important to me. I am a much safer and happier driver when K-LOVE is along for the ride plus at home it brings me peace and is a meaningful part of my day and uplifts me spiritually. If K-LOVE is replaced by an LPFM our community will suffer because there are many drivers -evidenced by the bumperstickers- and households -evidenced by friends I know that listen to K-LOVE - who rely on K-LOVE's message and music content. I believe K-LOVE is in the public interest because I have heard testimonials of law enforcement officers and bus drivers that have K-LOVE on in their vehicles and tell of the calming change in the riders they have including those that could have been violent or uneasy because of K-LOVE's message and content.
